

Qualifications Summary

Results-oriented and driven professional with 15+ years of experience leveraging technical, business, and financial acumen in fast-paced environments, dedicated to innovative front-end development.

Software Engineering & Development

- ♦ Motivated to design, build, maintain, analyze, integrate, test, and deploy software/systems.
- ♦ Dedicated to creating component-based and responsive software while leveraging Node JS, React, and CSS.
- ♦ Ability to program and code across architecture and utilize relevant frameworks, databases, and OS.
- ♦ Capable of integrating functional and aesthetic UI/UX.

Software Development Lifecycle (SDLC)

- ♦ Talented at creating both mobile and web applications with ability to oversee entire software development lifecycle (SDLC).
- ♦ Knowledgeable about test-driven development, automated testing, and quality assurance with experience debugging and troubleshooting PC towers, home theatre systems, and mesh networks.

Leadership & Management

- ♦ Inspired leader with proven track record of building, helping, and motivating teams to achieve beyond objectives.
- ♦ Highly experienced at planning, delegating, recruiting, training, and strategic thinking.
- ♦ History of sustaining compliance with best practices.

Collaboration & Communication

- ♦ Excellent communicator with ability to build and maintain relationships with both internal and external stakeholders.
- ♦ Passionate about learning with natural curiosity towards technology and coding, with ability to take, evaluate, and integrate feedback.

Technical Proficiencies

Programming Languages: JavaScript, SQL, HTML, CSS, JSON

Frameworks: Node JS, React JS, NPM, Bootstrap, Ajax, jQuery

Tools: HTML5, CSS3, Redux, Hooks, GitHub, Express

Key Skills: Object Oriented Programming, Version Control, Debugging, Troubleshooting, Web Application Design, Website Building, Site/System Architecture, Database Administration

Experience Highlights

Udemy, Remote, Longmont, CO Student – Software Development

2021 – 2021

Advanced in-depth understanding of both emerging and leading technologies, methodologies, and approaches to creating and deploying software across mobile and web. Gained and practiced ability to design, develop, and maintain software while incorporating UI/UX, testing systems, and overseeing debugging. Cultivated knowledge of conceptual frameworks focused on object-oriented programming.

- Conceived image recognition application while leveraging React and GitHub while deploying both front and back end through Heroku, in addition to testing software through Postman.
- Demonstrated academic excellence by completing four acclaimed certifications within only six months.
- Utilized [Replit](#) to practice and solidify knowledge of coding through personal projects.

Spark, Longmont, CO
Personal Shopper & Delivery Driver

2021 – Present

Receive, shop, and deliver grocery orders while driving between 200 and 300 miles per week. Pick orders as per instructions while making appropriate substitutions, choosing high quality produce, and maximizing value to customers. Package goods and load vehicle in addition to planning daily routes. Unload parcels and deliver directly to clients in both residential and industrial areas.

- Retained high rate of customer satisfaction and consistently exceeded metrics.

Nebraska Furniture Mart, The Colony, Texas
Installation/Measure Technician

2015 – 2021

Directed end-to-end process of installing luxury kitchen appliances in client homes. Visited sites and performed thorough observations of space including noting measurements of existing cabinets/furniture and troubleshooting installation process. Coordinated installation by writing/distributing detailed notes to internal and external stakeholders while facilitating smooth process. Established trusted relationships with customers.

- Promoted within role to become Primary Measure Agent due to excellent performance and in-depth knowledge.
- Augmented customer loyalty and upheld high KPIs while championing client needs by resolving issues and assisting to find alternative options.
- Made company history by receiving unbeatable top score reviews.
- Upheld zero rate of damage claims and averaged only two errors per 100 projects.
- Complied with industry best practices by consistently conducting self-study on plumbing and electrical trades.

Target Stores, Carrollton, Texas
Price & Presentation Team Lead

2011 – 2015

Spearheaded price change and presentation department while leading team of up to 12 personnel. Orchestrated departmental resets and supported completion of large Point of Sale (POS) signing projects. Served as key holder and performed opening/closing procedures. Produced work schedules based on business needs and delegated tasks. Recruited, pre-screened, interviewed, and selected employees in addition to overseeing performance management and growth/training.

- Exceeded team and individual goals while quickly adapting to changing business needs.
- Established and facilitated training for executive level employees.
- Retained best KPIs across 40 stores and highest price accuracy among 81 stores.
- Served as stand in across store in absence of colleagues.

Additional Experience

Sales Floor Team Lead, Target Stores, Carrollton, Texas

Education

Front End Libraries, freeCodeCamp (ongoing)

Mastering the Coding Interview: Data Structures and Algorithms, Udemy (ongoing)

The Complete Web Developer in 2022: Zero to Mastery, Udemy

Responsive Web Design, freeCodeCamp

JavaScript Algorithms and Data Structures, freeCodeCamp
